Environmental Policy

As part of the commitment to achieving the principles of environmental sustainability in the workplace, Libra Landscape & Facilities Management recognises the moral and legal responsibility to ensure that the activities, products and services are designed to enhance the environment in the communities in which Libra Landscape & Facilities Management operates, and to ensure that the operations do not place the local community or environment at risk of harm.

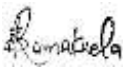

Libra Landscape & Facilities Management is committed to environmental improvement and prevention of pollution.

Management will work with the clients, suppliers and the community to adopt procedures that:

- Reduce waste through innovative work practices and recycling practices;
- It will commit to compliance to all relevant environmental Legislation/laws, pollution prevention and continual improvement.
- Minimise environmental impacts by reduction of polluting hazardous waste/substances produced;
- Minimise the impact of our operations on the neighbouring community;
- Increase the use of environmentally acceptable materials, equipment and technology in place of those which are considered harmful;
- Ensure that the suppliers follow acceptable environmental policies, and
- Actively promote environmental awareness among employees, contractors, clients, customers and the general public.
- Reduction in natural resources usage

Libra Landscape & Facilities Management recognises that the overall responsibility of environmental sustainability rests with Top Management, who shall be accountable for the implementation and review of this policy. This policy will be reviewed annually.

Top Management of the Company have signed this Environmental Policy to show their individual commitments.
